Combined Bachelor's/Master's in Emergency Management Interest Form

Note: Students must be seniors and have an overall 3.0 average in the undergraduate program at the time of their interest and otherwise meet all requirements for admission to the graduate degree, with the exception of having earned a bachelor's degree. Students accepted may enroll for and apply up to 9 graduate hours of credit to the completion of their Bachelor's degree to meet the 120-hour undergraduate requirement. If the student earns a grade of B or higher in a graduate course, that course will also be applied to meet the 33 (MDS) or 36 (MEM) hour requirements of the Master's Degree.

Coursework You'll work with someone from the Emergency Services Management and Disaster Science Department to plan courses that will meet requirements for your undergraduate degree and master's degree. This area is for **OFFICE USE ONLY**.

Course Prefix and Number	Course Title	Semester Hours	Term Taken

I understand that acceptance into this program allows me to enroll in graduate-level classes and apply earned credits in those classes toward the degree requirements of my undergraduate degree but in no way guarantees acceptance into either the Master of Emergency Management or Master of Disaster Science programs. If I meet the minimum grade requirements and plan to continue in either the MEM or MDS programs, I must apply separately.
